

GABRIEL FERNANDES RAMOS

Web Developer

I have previously worked as a customer support analyst, helping clients with their questions and problem resolutions. Currently, I am working as a web developer, enhancing my skills in creating interfaces and tools. The tools I am proficient in are **Vuejs, Prisma, NodeJs, TypeScript, Docker** and **PostgreSQL**

EXPERIENCE

Agenda Assessoria, Cuiabá -MT Full Stack Web Developer

October 2023 - Present

Project ConsigPrev

During my time on the project, I refined my development skills in a Payroll Loan System. I was able to learn new technologies and concepts, in addition to contributing with my past experiences.

Technologies and Tools:

- Vuejs / Bootstrap-vue
- TypeScript
- Prisma and Nestjs
- SQL Server
- Units tests with Jest
- Docker

Datweb, Cuiabá -MT Desenvolvedor web full stack

August 2022 - April 2023

Project: Lukro - ERP

During my time at the company, I contributed to an ERP project as a Full Stack Developer, creating screens, implementing functionalities, and solving system problems.

Technologies and Tools:

- Php
- HTML, CSS and JavaScript
- Ajax
- Bootstrap
- JQuery
- PostgreSQL
